

A. PURPOSE:

The main purpose of the project is we find the meritorious student in primary education.

FUNCTIONALITY:

Identify the bright student who are performing well in technical or non-technical field.

The web portal is designed such a way that we can students analyzed on different parameter, like who are better in study, who are better in sports and cultural activity.

Portal analyzed students on their knowledge, creativity, participation, grades and their skills.

Search Button

Profile of students

Notifications

SECURITY:

It authorized for government only.

TARGETED AUDIENCE:

Students of Gujarat

Government of Gujarat

B. PRODUCT SCOPE:

IT WILL DO:

Find better students

Search the students by category

Assign the task to students

Filter the students by their category

Records Of All tasks to given the students by government

IT WON'T DO:

It can not assign task to the students directly.

FUTURE ENHANCEMENT:

Can Be Made Available For India also

We include all the category

May also possible that the task is assign directly to the students according to their Skills.
